An introduction to the language through the development of written and conversational language skills and through structural analysis. Emphasis on Unified Basque (batua). Explanations and workbook exercises are geared specifically to the distance learner with little or no access to native speakers or instruction. 26 lessons; two progress tests; final examination.

Learning Basque On Your Own

BOGA is an online program for the learning of Euskara. It is one of the tools (via HABA) that is being made available online to learn the Basque language. For more information and to register, please contact Izaskun Kortazar at izaskunkortazar@gmail.com.

Aurrera!

A Textbook for Studying Basque, Volume 1, by Linda White

www.Amazon.com

Aurrera! is a comprehensive text for beginning-level students who are learning Basque (the Batua form approved by the Academy of the Basque Language) in a classroom setting or on their own. Each chapter introduces an element of grammar and offers students written and spoken exercises, vocabulary, dialogues, and other activities that demonstrate the language in action, plus Basque reading texts that will entertain while they illustrate the points of the chapter. The complexities of Basque grammar are explained in clear, easy-to-understand terms, and the dialogues and exercises introduce students to common idioms and the basics of social conversation.

Volume 1 covers material for the first two semesters of college-level language-classroom work. It is also designed to give independent learners a sound foundation in the language to allow them to make their own way in a Basque-speaking environment and to read basic Basque texts.

Beginner's Basque with 2 Audio CDs
